# Let's Hear from our Events Chair!

Events. Why should I attend events? They take time and effort and I'm busy! Well the truth is that you don't have to attend events. But from my experience you are leaving a lot on the table when you don't take advantage of events.

Alanon is all about us changing so why not take advantage of every resource available to us. Events are about learning new things but they are also about networking with others. I've found that attending an event is like old home week with all the seeing friends and hugging. Isn't that part of what Alanon is all about? Hope to see you at the next event and maybe you'll be as sold as we are!

## Let It Begin With Me

Today I will "Let It Begin with Me." I do not have to accept unacceptable behavior; I can begin by refusing to accept it from myself. I can choose to behave courteously and with dignity.

Courage to Change, pg. 267 AFG approved literature
